

THE NEW GENERATION OF V8 RACING HAS ARRIVED

NZ Touring Cars are delighted to introduce the all new NZV8TA2 Cars taking V8 Racing to a new era!

“Born in the USA to Perform on the Fast Flowing Circuits of New Zealand”

The PBR specification cars are built to the highest quality by one of the best USA Race Car manufacturers, Howe Racing and are proudly powered with a touch of New Zealand heritage by the race proven McLaren built 6.2 litre LS3 V8 engine.

“These super cost effective V8 race cars have taken the motorsport world by storm”

With the huge popularity and growth in Australia with grids of over 40 Cars these modern style sport coupes with the option of 3 different body styles represent amazing value and are set for premiere dominance here in New Zealand.

The PBR design of this fantastic formula has taken true parity to another dimension.

“Same Chassis, powerplant and running gear, all componentry with the exception of the body shape options, Mustang, Camaro or Challenger”

This concept of V8 racing has proven to be a huge hit with drivers and fans alike, with a substantial following now in Australia producing quality racing and with the refinements that can be easily and readily made to the car, this allows the small quality

team to compete at a professional level, taking the proven results to the driver.

For the inaugural 2020/21 season the new PBR specification NZV8TA2 cars will form a separate grid within the BNT V8s championship races. With a number of cars currently in production stages at Howe Racing we anticipate 6 – 8 months to ensure we have a sustainable number of PBR NZV8TA2 cars to form an exciting stand-alone grid and series here in New Zealand.

POSSIBLE DRAFT CALENDAR FOR THE 2020 – 2021 BNT V8S CHAMPIONSHIP

13 – 15 November	North Island
15 – 17 January 2021	South Island
22 – 24 January	South Island
12 – 14 February	North Island
19 – 21 March	North Island
24 – 26 April	Supercars

With the PBR Cars built to the exact specification as the TA2 cars in Australia the return of genuine Trans-Tasman challenges both in New Zealand and Australia are real!

QUOTES FROM THE TEAMS:

“They are such a fun car to drive, they make the right noise with an awesome amount of torque from the 525 HP McLaren built race engine running through a 4 speed G Force gearbox matched up with the higher profile Hoosier tyres”

“These cars are spectacular to watch and with tyre management playing an integral part they become a drivers car.”
